

THE HEART

The human heart, that most wonderful of engines, is scarcely larger than a man's fist. Yet in each twenty-four hours the dual heart moves approximately six tons of blood, equivalent to about two barrels of blood per hour. And this continues without ceasing from the first breath of infancy to the last sigh of age. Is it any wonder that when continued extra strain is put upon so delicate and busy an organ, it should break down? Is it any wonder that in this age of overwork there should be an increasing number of deaths attributed to heart failure?

Dr. Pierce's Golden Medical Discovery cures diseases of the organs of digestion and nutrition and purifies and enriches the blood. One of the ingredients entering into the "Discovery" is one of the best heart tonics known to medicine. Thus while through the action of "Golden Medical Discovery" the body is nourished into strength, the heart is also strengthened and an adequate blood supply is pumped to the stomach and kidneys thus improving the action of these organs.

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce by letter free, and so obtain without charge the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I had been troubled with extra strain of the stomach and heart," writes Mr. W. D. Merck of "Farmington, Conn. Co. Penna. "I had doctors for some time without relief. I began to take Dr. Pierce's Golden Medical Discovery. I took seven bottles. Before I began to take it I weighed 175 pounds, and now I weigh 125. I am working steadily and feel like a new man. I send you many thanks."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

OBITUARY.

Mrs. Esther A. Bond was born July the 21st, 1849 and died of consumption Feb. 19th, 1902. Deceased had been in bad health for about three years previous to her death and the last few months of her life she suffered greatly all the time, but she was fully prepared to die and called her family to her bedside one by one and told them she was going home and asked them to meet her there and for eight days before her death she said she felt the presence of the angels around her.

Her life was spent in her home among her children, she being the most devoted and self sacrificing mother I ever knew. Her nature was sweet and gentle. Her loss meant so much to us who knew her best and loved her best and when she could no longer talk to her friends of Heaven she pointed upward to show them where to meet her. She having been faithful unto death is now given a crown of life. "Blessed are the dead that die in the Lord that they may rest from their labors and their works do follow them." Though we know our sainted mother's voice will never cheer us here on earth, or soothe our sorrows as of old, her love for us and her sweet patience will always be an example for us to follow and an inspiration to us to strive for the higher things pertaining to this cold comfortless world? No! Rather let us live our lives faithful to God as she lived and meet her on the other shore where all is immortal youth and eternal bloom. Our lives at longest are not long and then there is no death.

Let us look up and try not to grieve for our mother but try to look for the sun that is surely shining beyond the dark cloud and to remember that here is just the common lot and that she is so much happier than we, and that there is no union here on earth that does not end.

God in his infinite mercy will not forsake us or give us one trial too many. Let his strength sustain us, his grace to kiss the parting smiles, to bear the cross given us and to say in all things "Thy Will be done." VIC BURGESS.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Kidney, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail, send 3c. in stamps, free also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

CHARLEY

The protracted meeting closed Sunday night with 8 conversions. Most of them will be baptized on the 4th Sunday by Rev. R. F. Rice, who conducted the meeting. He is an eloquent preacher of great power. He organized a church Thursday night with 14 members. The M. E. C. S. is the only Methodist church in this vicinity. We hope this church and her neighbor churches will unite and be as one church to fight the great battle of sin for our Master.

Mrs. R. S. Chaffin has been visiting here.

The Easter entertainment was a success. The Easter sermon delivered by Rev. Rice was liked by everybody.

Richard Berry and wife visited their son, Elmo, recently.

Jed Davis visited relatives here last week.

W. M. Chapman has his store house and dwelling almost painted.

Bevens Bros. are erecting a small store near their father's, about 2 miles below town.

Miss Lue Wheeler, who has been staying with her brother, Dr. Wheeler, has returned to her home in Johnson.

Uncle John Pack is improving slowly.

Johnson County.

PAINTSVILLE.

Judge H. B. Rice, has been in town during the past week holding the April term of the Johnson Fiscal Court.

One of the most important things done by the court was the purchase from Jno. A. Preston of the lot of ground where his old barn now stands, which projects into the public square at Paintsville. The old barn and the ice house near by are to be removed and the land purchased added to the public square. This will not only greatly improve the shape and appearance of the square, but will greatly reduce the risk to the court house of fire from without.

By the way, Judge Rice has done another thing that is greatly to the liking of the good people of this county—he has put the "Blind Tigers" to sleep. His motto is—"The Blind Tigers must go and stay." If there is one left in the county, it is keeping so quiet that its whereabouts are not known.

Two mad dogs have been killed recently. First was killed near Denver, Ky., by Willie Patrick, while the other was pursued, overtaken and killed near Hager Hill by Garland Rice. Both dogs started from Barnett's creek.

Miss Fanny Mayo, of Paintsville, and Miss Lucile Rice, of Hager Hill, are attending college at Millersburg, Ky.

Mr. and Mrs. George B. Rice, of Hager Hill, are visiting friends and relatives in Catlettsburg and Ashland this week.

Mr. Marvin Mayo, of Paintsville, who has been spending a few days at home, has just returned to his work in Pikeville.

Prof. R. A. E. Leslie's school at Hager Hill has just closed. He is one of our ablest teachers.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thinning out it won't stop because the weather is warm.
